SUMMARY

Cybersecurity-focused engineer pursuing a Master's in Cyber Security at Osmania University with hands-on experience in Attack Surface Management (ASM), vulnerability assessment, malware analysis, network traffic analysis, and secure software development. Experienced in identifying security weaknesses, validating vulnerabilities, and producing professional security assessment reports. Skilled in Wireshark, Burp Suite, Nmap, Maltego, AWS, and secure coding practices.

TECHNICAL SKILLS

Security: Attack Surface Management (ASM), Vulnerability Assessment, Penetration Testing (PTVA), Web Application Security, Network Security, Malware Analysis, Threat Analysis
Tools: Wireshark, Burp Suite, Nmap, Maltego, MXtoolbox, big, Metasploit, Postman, ProcessHacker
Cloud & Systems: AWS (EC2, VPC, Security Groups, RDS), Linux, Git, GitHub
Programming: Python, Java, JavaScript, C/C++
Networking: TCP/IP, DNS, HTTP/HTTPS, Packet Analysis
Security Concepts: OWASP Top 10, Secure Coding, OWASP WSTG v4.2 OAuth 2.0, Authentication and Authorisation Cryptography.

PROFESSIONAL EXPERIENCE

Pragya Cyber | Security Analyst Intern | May 2026 – Present

- Conduct Asset Surface Management (ASM) activities to identify internet-facing assets, exposed services, and potential attack vectors.
- Perform vulnerability assessments and limited penetration testing (VAPT/PTVA) on web applications and external infrastructure.
- Analyze findings, validate vulnerabilities, and assess security risks based on impact and exploitability.
- Prepare detailed technical reports documenting vulnerabilities, evidence, risk ratings, and remediation recommendations.
- Utilize security tools such as Nmap, Burp Suite, Wireshark, and OSINT techniques during assessments.
- Collaborate with senior security professionals to improve assessment methodologies and reporting quality

HulkHire Tech, Hyderabad | Java Developer Intern | Apr 2025 – Jul 2025

- Developed and integrated PayPal Checkout using Java Spring Boot in a microservices architecture on AWS
- Implemented end-to-end payment lifecycle & reconciliation, ensuring zero unsettled transactions
- Secured APIs using OAuth 2.0 and improved performance with Redis caching
- Designed backend using Factory & Builder patterns with centralized exception handling
- Configured AWS VPC, subnets, and security groups; deployed services on EC2 with Application Load Balancer
- Managed RDS databases and AWS Secrets Manager for secure credential handling
- Improved fault tolerance using circuit breaker pattern and monitoring via Micrometer
- Achieved high test coverage using JUnit & Mockito

EDUCATION

Masters of Engineering in Cyber Security | Nov 2025 – PRESENT

University College of Engineering - Osmania University

Bachelor of Engineering in Computer Science and Engineering | Nov 2021 – Dec 2024

Muffakham Jah College of Engineering and Technology – Affiliated by Osmania University

Diploma in Computer Engineering | Jun 2018 – Sep 2021

Quli Qutub Shah Polytechnic College – State Board of Technical Education.

ADDITIONAL INFORMATION

- **Qualified GATE 2026 (CSE) – Score: 550 | Rank: 8810**
- **Secured 55 Rank in TS PGECET**
- **Qualified PSU Exam: BEL, ECIL, NIELET.**
